

Policy Statement- Environmental

Insite Managed Services is committed to achieving environmental best practice throughout its business activities, wherever practicable.

In accordance with the continuing importance of addressing environmental issues, Insite are always seeking ways to improve its environmental performance and to ensure compliance with statutory requirements applicable to our business activities; the following will be paid particular attention to.

- A reduction in paper consumption, both virgin and recycled, for internal company use
- Recycling of internal company paper waste wherever this is practicable
- The use of less hazardous chemicals, materials and substances that are biodegradable and have less impact on the environment.
- The training of our staff in environmental awareness and environmental management.
- Procurement of environmentally friendly products wherever possible.
- Insite adhere to the working principles of ISO140001 standards

This policy will be implemented throughout the management structure of Insite Managed Services with direct responsibility remaining with senior management within the company.

This statement of policy will be made freely available to staff, clients, and suppliers upon request.

A handwritten signature in black ink, appearing to read 'Neil Webb', is written over a light grey circular background.
